# THE UK'S LEADING AIRPORT APPROVED SUPPLIER

## of architectural metalwork & infrastructure fabrication

Founded in 1975, Trueform is a leading company in the design, manufacture, finishing and installation of high-quality construction related fabrication products and services.

Working with top clients, architects and contractors, Trueform meets the individual needs of customers who expect the very best.

With headquarters and 125,000 sq/ft manufacturing facility in West London, depots throughout the UK and overseas divisions in North America and the Middle East, Trueform offers worldwide experience certified quality service and support in every project phase.

The scope of work includes technical sales advice, budget pricing, tendering, CAD design, engineering, manufacture, finishing, supply and site installation/ fitting of any type of construction related fabricated metalworks.

### SPECIALIST AREAS OF OPERATION

- Construction Related Fabrication Services
- Airport & Transport Infrastructure Fabrication
- Industrial Machine Special Fabrication
- Stainless Steel Fabrication
- Aluminium Fabrication
- CAD Design
- Product Management
- Installation and Site Fitting
- Modular Construction and Site Erection
- Specialist Finishing
- Elevator Engineering Services

## Metal Fabrication Services & Fabricated Products

### Design & Engineering Expertise

Trueform's ability to blend creative designs with sound engineering expertise enables the company to create products that are not only powerful visually but that are robust and easy to maintain.

Design proposals are detailed to meet the demands of busy global cities. They are functional, comfortable, safe, modular and ecological. They don't merely merge with surrounding architectural aesthetics, they improve and enhance the surrounding areas.

Our design engineers ensure that designs are 'future proofed' and offer the maximum flexibility and opportunity for future growth/ upgrade.

### Installation & Site Fitting

Trueform's highly experienced and qualified installation, site fitting and contract management personnel work strictly to robust quality and health and safety procedures. Trueform ensures the highest levels of quality (our management system is accredited to BS EN ISO 9001), time and cost reliability. Close attention to detail and maximum utilisation of off-site fabrication techniques ensures Trueform's industry respected reputation.

HIGHEST LEVELS OF QUALITY,  
TIME & COST RELIABILITY

Bomb Resistant Glazed Screens

## Metal Fabrication Services & Fabricated Products

### Manufacturing Facilities

The 125,000 sq ft production facility in West London, houses some of the most advanced CAD/CAM linked manufacturing equipment available in the industry.

Latest computerised laser processing manufacturing technology and machinery combine with proven procedures, traditional values, skill and experience to deliver competitively priced top quality products.

Trueform's combined expertise in fabrication, sheet metal component and sub-assembly development and product finishing can help customers to minimize time to market by reducing or eliminating problems with production by producing Total Engineering Solutions.

### Modular Construction, Site Fittings & Erection Methods

Trueform employs modular construction methods which allows the construction of technically complex fabricated metalwork to be undertaken by offsite manufacturing techniques.

Factory fabricated and assembled, the parts are then broken down, packaged and shipped to site. After delivery, the components can be assembled allowing reduced site occupancy times.

#### MANUFACTURING CELLS

- Raw material laser processing
- CNC Machining
- CNC Punching
- Folding and forming
- Fabrication
- Assembly line
- Pre-treatment and finishing
- Graphic department
- CAD CAM design
- Production planning and management

Flight Information Unit

Bomb Resistant Shelter

### Project Management

Trueform's experienced, well-trained and disciplined project managers follow proven project management procedures.

Utilisation of leading planning and management tools gives Trueform full control of quality, cost and programme and ensures successful project management.

Strict adherence to all company quality and health and safety processes ensures a high quality product and a safe working site. Trueform are able to give an individual response to the needs of each project and respond quickly and accurately to changes wherever they occur.

#### PRODUCTS & CUSTOM FABRICATION SERVICES

- Architraves & Skirting
- Balustrades & Handrails
- Balustrade Infill Panels
- Bars / Counters
- Bonded Fascias
- Bridges & Walkways
- Brise Soleil
- Bull Nosing & Feature Flashing
- Canopies & Walkways
- Ceiling Panels & Cladding Panels
- Column Cladding
- Curved Fascias
- Elevators, Escalators & Moving Walkways
- Glazed Screens
- Glazing Support Systems (Bespoke)
- Laser Cutting
- Louvres & Grills
- Machined Parts
- Mesh Panels & Screens
- Mezzanines
- Panels & Perforated Panels
- Rainwater Guttering Systems
- Sections & Profiles
- Sheet Metalwork
- Staircases
- Stair Treads, Trims & Handrails
