

Temporary Pedestrian Wayfinding Totems with Touch Free Hand Sanitisers

Trueform's temporary non-touch hand sanitiser signage units combines traditional hand sanitation with wayfinding to create a multi-purpose solution.

Ideal for high streets or shopping centres, these totems can help boost local business and the economy by increasing footfall and trade. The freestanding unit with a weighted base for self-supporting installation, can be positioned anywhere, without the need for permanent fixing / excavation work or foundations. The sign also complies with all required wind and structural loads.
