

## Leeds Totems

Trueform worked closely with designers to develop this Legible Leeds Wayfinding Signage Systems from concept design to manufacture and value engineering. This includes Minilith Area Signs, Monolith Welcome Signs, Freestanding Arrival Signs, Wall Mounted Arrival Signs and Fingerposts throughout Leeds City Centre.

The project was key to promote walking to residents, businesses and visitors to navigate them around the city centre on foot. The signs direct and assist

These elegant easy to use signs shows a detailed 3mile radius map, with an A-Z quick search listing and map location number. Each sign unit has its own identification number with QR codes on the side so you can have the information sent directly to your phone. In addition, for use at night, the mapping panels are solar illuminated during the evening.

Trueform manufactured and installed 140 units, in house from our local Leeds Depot. people to find their way around for shopping, businesses, tourist hotspots, cultural districts and many more destinations.
