SUBCONTRACT MANUFACTURING, TECHNOLOGY INTEGRATION & PRODUCT ASSEMBLY SERVICES

The Trueform Manufacturing & Technologies Group provide a wide range of tailor made specialist manufacturing, digital technology integration and product assembly services to a wide range of industries.

A pioneering technology & manufacturing company, we provide a comprehensive one-stop-shop precision product manufacture, digital integration, supply, assembly, commissioning and test service to a wide range of blue chip customers within the public transportation, intelligent mobility, electric vehicle, connected autonomous vehicle, automotive, smart city, smart ticketing, pharmaceutical, digital banking and digital advertising industries.

We utilise leading technology and advanced manufacturing techniques within our in-house manufacturing facilities to produce market leading products for our clients.

With over 40 years of experience, with significant depth of knowledge and expertise gained internationally, Trueform have provided some of the largest and most successful clients in the World with some of the most widely recognised and iconic products.

Trueform's clients include technology companies, EV charge point manufacturers, digital kiosk companies, ticketing companies, cities, transport authorities, highways agencies, governments, construction companies, outdoor advertisers and communication companies across the emerging digital transportation, out of home advertising and retail advertising sectors.

Trueform is a synthesis of advanced manufacturing professionals, technologists, engineers, IoT, Smart City and AI professionals. Our aim is to enrich the human experience with meticulously manufactured products. We bring to bear focus and tenacity through the discipline and rigour of engineering and technology. Trueform have provided over 250,000 product deployments for our clients, at premium locations in major cities throughout the World.
